RULES AND REGULATIONS

Item No.	Subject	Application
35	Payment of Transportation and Other Charges [continued]	If Shipper or Consignee fails to pay the transportation charges within 10 days after payment is due, Carrier shall have the right to sell Shipper's or Consignee's Refined Petroleum Products at public auction for cash. The auction will be held between the hours of ten o'clock a.m. and four o'clock p.m. on any day not a weekend or legal holiday, and not less than twenty-four hours after Shipper has been officially notified of the time and place of such sale and the quantity, general description, and location of the Refined Petroleum Products to be sold. Carrier may be a bidder and purchaser at such sale. Out of the proceeds of said sale, Carrier shall pay itself for all transportation, demurrage, and other lawful charges, expenses of notice, advertisement, sale and other necessary expenses, and expenses of caring for and maintaining the Refined Petroleum Products, and the balance shall be held for whosoever may be lawfully entitled thereto after the auction. If the proceeds of said sale do not cover all expenses incurred by Carrier, Shipper and Consignee, if any, are liable to Carrier for any deficiency.
40	Liability of Carrier	Carrier shall not be liable for loss of Refined Petroleum Products in its custody, damage thereto, or delay caused by fire, storm, flood, epidemics, Acts of God, riots, insurrection, rebellion, war, act of the public enemy, quarantine, nuclear or atomic explosion, strikes, picketing, or other labor stoppages, whether of Carrier's employees or other, the authority of law, requisition or necessity of Government of the United States in time of war, default of Shipper or Shipper's Consignee or any other cause not due to the sole negligence of Carrier, whether similar or dissimilar to the cause herein enumerated. In the event of such loss, each Shipper shall bear the loss in the same proportion as its share of the total quantity involved and shall be entitled to receive only so much of its share remaining after its due proportion of the loss is deducted. Transportation charges will be assessed only on the quantity delivered net of volume corrections as set forth in Item No. 45 herein.
45	Gauging, Testing, and Volume Corrections	Shipments tendered to Carrier for transportation shall be tested by a representative of Carrier, and gauged or measured by automatic equipment approved by Carrier or by other methods acceptable in the industry, at locations designated by Carrier. The Shipper shall have the privilege of being present or represented at the gauging and testing. Quantities will be computed from correctly compiled tank tables or by Carrier approved meters. Corrections will be made for temperature from observed degrees Fahrenheit to sixty degrees (60°) Fahrenheit. Shipper shall bear the actual product losses for shrinkage and evaporation incident to pipeline transportation up to a maximum of twenty-five hundredths (0.25) of a percent. Where claims are not filed or suits are not instituted thereon in accordance with the foregoing provisions, Carrier shall not be liable, and such claims will not be paid.
70	Proration of Pipeline Capacity	When the total volume offered for shipment is greater than can be transported within the period covered by such offers, Refined Petroleum Products offered by each Shipper for transportation will be transported in such quantities and at such times to the limit of Carrier's capacity so as to avoid discrimination among Shippers. The details of Carrier's method of proration are contained in a document entitled [W] Holly Energy Partners — Operating, L.P.
