Item No. 3 – Apportionment when Nominations are in Excess of Facilities

Exceptions to the governing Rules & Regulations published in Marathon Pipe Line LLC’s FERC No. 316.15.0 (Item No. 11) and MPLX Ozark Pipe Line LLC’s FERC No. 1.2.0 (Item No 75):

When there shall be nominated to carrier for transportation more crude petroleum than can be immediately transported, based on the capacity of the system or any line segment thereof, the following proration policy will apply:

I. Definitions

“Committed Shipper” means any shipper that has executed a TSA to commit to transporting, or paying for the transportation of a specific minimum volume of crude petroleum. Committed Shippers will have priority service in exchange for a premium rate. Committed Shippers will be treated as an uncommitted shipper for any nominations in excess of its Monthly Committed Volume.

“Monthly Committed Volume” with respect to a Committed Shipper, is the minimum monthly volume requirement of Crude Petroleum set forth in their TSA.

“Transportation Services Agreement (TSA)” means an agreement, executed between the Carrier and a Committed Shipper, which includes a monthly deficiency obligation, as a result of an open season.

II. Proration Procedures

When volumes for any month exceed the capacity in any line segment of the Carrier’s systems, such capacity shall be allocated among Shippers by the following procedure:

- (1) Nominations from Committed Shippers up to their level of their Monthly Committed Volume will not be subject to proration under normal operating circumstances.
- (2) If Nominations from Committed Shippers for the month is less than their Monthly Committed Volume, the Committed Shipper will be allocated only the amount of its Nominations, still subject to the monthly deficiency obligation as determined with their TSA. In the event that Committed Shippers do not fully move their Monthly Committed Volume, the available capacity will be made available to accommodate nominations made by uncommitted shippers under each joint carrier’s prospective local tariffs.
