RATES AND FEES

The rates published in this tariff are for the intrastate gathering and transportation of Raw Make through the pipeline system of Carrier. For clarity, Carrier is providing transportation service on certain routes as footnoted below under this tariff on an interim basis only in order to provide partial transportation service on the portion of Carrier’s system that is available and capable of accepting Raw Make in accordance with this tariff and Texas Intrastate No. 1.2. Carrier will submit a revised tariff that identifies the transportation service and associated rates that will govern movements as the system becomes fully operational and Carrier is no longer providing interim service.
